

Storm Shelter Areas

Downtown Campus  
Newberry Building  
First Floor

- 1. When a tornado warning is issued, go to a safe area to protect yourself from glass and other flying objects.
- 2. Stay away from windows.
- 3. After a severe storm, if there is damage to the building, evacuate the building using the stairways. DO NOT USE ELEVATORS.
- 4. Be especially alert for broken glass and downed electrical lines.
